FINE JEWELRY

NCE VANDENBORRE LAURENCE VANDENBORRE LAURENCE VANDEN

YOUR COLORFUL MEMORIES MADE IN GOLD

ABOUT

GIA gemologist and jewelry designer based in Antwerp, Belgium, Laurence strongly believes that a jewelry piece is an emotional treasure. That is exactly what her collections with precious stones reflect: colorful and elegant luxury to highlight a precious moment in life.

The pieces in 18K gold are easy to wear and still embody uniqueness and refinement. Laurence cares about quality and transparency: she ethically analyses and selects worldwide all the gems she sets in her designs.

MEET LAURENCE

Laurence Vandenberg is a young, experienced Belgian jewelry designer based in Antwerp. At the age of fourteen she was already selling her own handmade jewelry set with Swarovski pearls. But her true dream? Designing and marketing her very own fine jewelry collection.

With her master's degree at HEC in Marketing & Management (2013) and her degree in Gemology from the Gemological Institute of America (2015), Laurence began chasing her dream to become a jewelry designer. For 5 years she worked at HRD Antwerp, a renowned diamond laboratory in Antwerp. First as a senior Lecturer and then as Marketing Director.

In 2018 Laurence's dream came true: she launched her first fine jewelry collection. All her designs are a true embodiment of her vision: stylish and luxury jewelry pieces that can be worn every day by women from every walk of life. Elegant pieces that reflect their personal style, their character, and that make them feel unique and confident.

Laurence is a creative mind: she plays with all sorts of colors, shapes and movements. That is why her refined and elegant jewels speak to a very varied and wide target audience. Precious stones like diamonds, sapphires, emeralds and tourmalines are the centerpieces of her collections and come from all over the world (Madagascar, Sri Lanka, Columbia, Thailand,...).

As Laurence stands for high quality, all her jewels are made by hand in recycled 18K gold in her ateliers in Belgium and Italy. She also ethically analyses and selects all the gems she offers. Jewelry set with diamonds comes with grading reports issued by a renowned certification lab, as transparency towards the customer is her number one priority.

QUALITY

Laurence has a solid relationship with all her highly skilled manufacturers, goldsmiths and setters from Belgium and Italy. That way she maintains control over all the quality standards. She analyses and ethically selects all the stones herself. These approved gems are then carefully handcrafted in local ateliers.

SIMPLICITY

Less is more. That is why Laurence designs elegant and refined jewelry pieces for everyday wear and for every budget. No matter the occasion or time, Laurence wants you to feel unique, confident and proud when wearing your LV Fine Jewelry pieces.

TRANSPARENCY

Transparency is key for Laurence. She gladly takes you through the wonderful journey of your unique jewelry design and shares her secrets of the manufacturing processes. She uses only high-quality materials and keeps a careful eye on the whole process: the design itself, the 3D rendering and the actual crafting. Each step of the way she makes sure that everything is in compliance with her high-quality standards.

ANTWERP

Laurence Vandenborre's atelier is located in Antwerp, the world's leading diamond center since 1447. Thanks to the Antwerp Diamond Heritage she can work closely with highly skilled manufacturers, goldsmiths and setters and maintain strict control over quality standards.

STONES

As Laurence has been a gemologist since 2015, she analyses and ethically selects each diamond and colored stone herself. All diamonds are accompanied by grading reports issued by renowned laboratories. That way your piece of jewelry does not only look breathtaking, its background is impeccable too. As the stones are bought from local wholesalers directly, Laurence offers competitive prices compared to traditional jewelry stores.

EXPERTISE

You deserve the very best. That is why each piece has an elegant design that has been carefully handcrafted in Laurence's atelier. She only uses high quality materials like 18K gold and platinum and meticulously oversees each step of the manufacturing process. Sketching your design, making a 3D rendition and the actual crafting: every step gets her undivided attention.

TAILOR-MADE

**BECAUSE EVERY JEWELRY TELLS A
UNIQUE STORY: YOURS.**

Laurence offers an “à la carte” service: you select with her the shape & color of the precious stones, as well as the gold color. She then works on a 3D design just before working her magic: in about 15 days, you receive your custom-made jewel, handcrafted in her atelier in Antwerp.

Looking for some personal advice to select the precious stone of your dreams? Book a private appointment with Laurence or visit her seasonal pop-up stores & private evenings.

DUE TO HER PROFOUND FASCINATION WITH DIAMONDS, SAPPHIRES, TOURMALINES, AND OPALS, AMONG OTHERS, LAURENCE WANTS TO PUT THESE GEMS IN THE LIMELIGHT AND MAKE THEM ACCESSIBLE TO EVERYONE.

PERMANENT COLLECTION

Laurence offers a permanent selection of rings, earrings, bracelets & necklaces available on her website and in her showrooms and seasonal pop-up stores.

Refinement & exquisite choice of precious stones are her focus while creating new designs. The origin of colored stones is crucial for her as she can shorten and control her full supply chain from mine to market.

Pricing available on www.laurencevandenborre.com.
All pieces are available in yellow/rosé/white 18K gold.

CAPSULE “IMPERFECT SHAPE”

Is a reflection of how the world is being constructed, it's not quite perfect, yet it finds its balance with juxtaposed elements that body it. These jewels give space to portrait the rawness of our society while trying to find its equilibrium.

CAPSULE “ATTEMPT OF A CURVE”

The association of lines and curves hides the idea of creating intertwined forces that push and pull us back at the same time. The axe in the center allows curves to turn and twirl. The strength of the lines and the softness of the curves colliding, creates a magical piece filled with character.

Pricing available on www.laurencevandenborre.com.
All pieces are available in yellow/rosé/white 18K gold.

CAPSULE “IN AN 80’S HEART”

It's a revival and a tribute to a generation of women who grew up in the pop art era where vibrant colors stimulate the eyes and the heart. Street art was emerging with graffiti as a popular expression accessible to all. This collection is an homage to incredible talents that have brought a fresh new vibe to the world!
